

## ICYE 2019 proceedings peer review evaluation form

Name article (file #)	
Needed before publication	<input type="checkbox"/> Minor revisions <input type="checkbox"/> Medium revisions <input type="checkbox"/> Major revisions
<b>Theory &amp; methodology</b>	
Are theory and methodology clearly introduced?	
Are theory and methodology appropriately applied to the material?	
<b>Scope</b>	
Is the scope of the article well determined?	
Is the scope of the article sufficient for a 5000 word article?	
<b>Content</b>	
Is there a clearly stated research question?	
Are the limitations encountered during the research clearly defined?	

Are the hypotheses stated viable based on the presented material?	
Is the 'past research' presented relevant to the topic?	
Are the (preliminary) results mentioned viable based on the presented material?	
Does the article add anything new to the field? Relevance?	
Is the abstract a complete summary of the article?	
<b>Formatting</b>	
Is the article coherent?	
Does the article make sense? (not: do I agree?)	
Does the conclusion make sense based on the results presented in the article?	
What literature can you recommend to the author?	
What are some positive features from the article that are not mentioned above?	
Is there anything missing from the article? If so, what?	
Any further comments:
